

Biraj Regmi

Full Stack Developer — Kathmandu, Nepal

+977 9846892218 — regmibiraj.dev@gmail.com — **LinkedIn:** [biraj-regmi-007679183](#) — **Portfolio:** [regmibiraj.com.np](#) — [Biraj010](#)

Full Stack Developer with **3.5+ years of experience** building scalable products across React, Next.js, Node.js, Express, Prisma, PostgreSQL, and MongoDB. Delivered freelance and in-house systems end-to-end covering frontend, backend APIs, CMS workflows, and production deployment. Built secure authentication flows, e-commerce checkout/order systems, real-time chat, and admin panels with role-based access control. Shipped **10+ projects** with strong focus on maintainability, performance, and clean user experience.

TECHNICAL SKILLS

Frontend React.js, Next.js, JavaScript (ES6+), TypeScript, Redux Toolkit, Tailwind CSS, HTML5, Vite

Backend Node.js, Express.js, REST APIs, CMS Architecture, JWT / API Key Auth, Socket.IO, Python

Databases PostgreSQL, Prisma ORM, MongoDB, MySQL, Mongoose

DevOps Linux, Nginx, Docker, Git & GitHub, CI/CD, S3 Signed Upload Flows, DigitalOcean

Soft Skills Agile Collaboration, Problem Solving, Client Communication, Ownership & Initiative

PROFESSIONAL EXPERIENCE

MERN Full Stack Developer Nov 2025 – Present
EasyPR – Press Release Distribution Agency, Kathmandu, Nepal

- Engineered and maintained secure Node.js, Express, and MongoDB services for live production applications.
- Managed Linux server environments, release configuration, and process monitoring for stable deployments.
- Configured Nginx reverse proxy and routing layers to improve reliability and production traffic handling.

React Developer Sep 2025 – Dec 2025
EasyPR – Press Release Distribution Agency, Kathmandu, Nepal

- Built responsive, SEO-aware interfaces with React.js and Next.js for production websites.
- Developed reusable components and API-connected page workflows using Redux and Axios.

Freelance Full Stack Developer Oct 2022 – Present
Remote / Kathmandu, Nepal

- Core stack: React, Next.js, Vite, Tailwind, React Query, Node.js, Express, MongoDB, PostgreSQL, Prisma, JWT, NextAuth, Cloudinary, Socket.IO.
- Built the **S.A Surgical** platform end-to-end: Next.js storefront, Express backend, and React+Vite CMS for product, order, user, and dashboard operations.
- Implemented secure auth with JWT refresh flows, NextAuth (credentials + Google OAuth), and protected admin/super-admin route guards.
- Designed PostgreSQL relational models via Prisma covering users, products, categories, orders, order-items, and message workflows.
- Added Socket.IO chat and Cloudinary signed-upload flows for real-time communication and CMS-driven media management.
- Delivered additional freelance products: **Announce Chain** and **Blood Bank Management System**.

Front-End React Developer Intern Dec 2024 – Mar 2025
Amazing Info Sys, Kathmandu, Nepal

- Developed responsive React.js interfaces and integrated REST APIs for internal and client-facing projects.
- Improved state architecture with Redux Toolkit and clean loading/error handling patterns.

PROJECTS

S.A Surgical Commerce Platform Freelance

Full commerce system with Next.js storefront, React+Vite CMS, and Express API. Secure auth flows, product/order/user management, manual-order operations, real-time chat, and PostgreSQL+Prisma data layer.

Webloft Digital Platform

webloft.com.au

3-app architecture (public frontend + admin CMS + Express API) with modular content domains, JWT-protected admin operations, dual-schema service rendering, and resilient media/contact pipelines.

CoinSea Content Distribution Platform

coinsae.com

Centralized CMS + API for multi-site content distribution with API-key/domain validation, RSS ingestion and moderation, slug-based feed delivery, and role-protected publisher/contact workflows.

HireOnChain – Web3 Freelance Marketplace

Decentralized marketplace with Solana escrow contracts (milestones, approvals, release/dispute flows) and synchronized off-chain app state with on-chain transaction events.

Announce Chain

[GitHub](#) — announcechain.com

Press-release distribution with dynamic service/industry pages, CMS-driven blog publishing, and SEO-ready metadata and sitemap pipelines.

Blood Bank Management System

[GitHub](#)

Dashboard and API workflows for donor records, blood inventory, and request/status management with secure role-based access control.

AI Support Copilot SaaS

Personal Project

Multi-tenant support automation platform with LLM-powered ticket triage, SLA-based routing, agent-assist reply drafting, and analytics dashboards using Next.js, Node.js, PostgreSQL, and queue-based workers.

EDUCATION

Bachelor in Information Management (Information Technology)

2021 – 2025

St. Xavier's College, Maitighar, Kathmandu — *Tribhuvan University*
